April 17, 2022	Content Creation	Publication of the article 13+ Proven Ways Agencies Can Establish Strong Relationships With New Clients

Performance & Uptime

We do our best to keep your websites blazing fast and available all the time.

Uptime

Downtime happens more often than people think. That's why we constantly monitor your website to make sure that we are the first to know that your website is down, so we can fix it before your consumers even notice it!

Status	Up
Uptime	99.94%

Performance

When a customer or a visitor opens the website for the first time, they expect it to load quickly (within 3 seconds). Bear in mind that first impressions are vital for businesses on the web. Speed plays a decisive role in how audiences perceive a brand on the web. Obtaining a perfect Google PageSpeed Score (100/100) for your site is almost impossible, but we are constantly working towards this goal.

Response Time	71.64 ms
Google PageSpeed	100 /100
- First Contentful Paint (FCP)	0.4 s
- Largest Contentful Paint (LCP)	0.4 s
- Time To Interactive (TTI)	0.4 s

Updates

We Keep Your Core, Plugins and Themes Updated to Their Latest Version.

In our world of amazing technology, updates are crucial for strong performance and security. The WordPress platform is being tested and updated on a regular basis for the best possible performance and to avoid any security loopholes. Just like the updates for our phones, these WordPress updates reduce the number of security issues, and maintain a positive user experience on your website.

WordPress Core

✓ WordPress core is at the latest version.

Plugins Updates

Plugin	Version	Updated On
MainWP Dashboard	4.1.12 → 4.2.1	April 19, 2022
Safe SVG	1.9.10 → 2.0.0	April 19, 2022
Yoast SEO	18.3 → 18.6	April 19, 2022

Backups

Backing up Your Website Is the Only Way to Ensure You Are Protected From Losing All the Work You Have Put Into It.

A backup is the main guarantee that your site can be completely restored after any problems and crashes. A site backup helps if you inadvertently delete some important elements, a theme or plugin/module harms your site, or if the website is hacked. That's why we always keep several backups of your website.

✓ Your website is backed up.

Number of Backups	580
Last Backup	April 25, 2022, 11:10
Backup Frequency	Hourly (1h)

Site Health

Making sure that your website stays safe and indexable by Search Engine is our top-priority.

If you don't have an SSL certificate, your website may still function as always but it will be vulnerable to hackers and Google will warn visitors that your website is not secure Google also gives priority to websites that have an SSL certificate. We make sure that your websites have an SSL certificate and that your website operates in a healthy environment.

SSL Certificate	✓
Indexable	✓
PHP Version	7.3.32
PHP Version is Secured	✓
